UI/UX Designer Freelance

Freelance, Lax Designs

- Designed and delivered intuitive, user-centered digital interfaces to improve usability and overall client satisfaction.
- Prospected and secured both short-term and long-term freelance projects, developing strong client acquisition and project management skills.
- Built wireframes, interactive prototypes, and design systems to translate business requirements into effective design solutions.
- Enhanced technical portfolio by applying modern design and prototyping tools including Figma, Adobe XD, and Sketch, with implementation support using HTML, CSS, and basic JavaScript.
- Strengthened technical, creative, and problem-solving abilities while managing multiple client projects in a dynamic freelance environment.

July 2025
(present)

Software & Web Developer

Freelance

- Designed and developed 5 responsive websites and 4 custom systems/applications, including the flagship project rap.co.ke, each tailored to unique client requirements.
- Applied full-stack development skills, integrating front-end technologies (HTML, CSS, JavaScript, React) with back-end solutions (Node.js, PHP, Python, MySQL) to deliver scalable and functional products.
- Implemented end-to-end workflows: requirement analysis, system design, coding, testing, deployment, and maintenance.
- Enhanced project management, independence, and focus by successfully delivering solutions in self-directed environments.
- Strengthened problem-solving, debugging, and innovation skills through diverse client projects across multiple domains.
